Instructions: Regardless of whether you answered "YES" or "NO" with respect to the non-statutory aggravating factors in Section I above, continue your deliberations in accordance with the Court's instructions and proceed to Section II which follows.

## II. MITIGATING FACTORS

Instructions: For each of the following mitigating factors, you have the option to indicate, in the space provided, the number of jurors who have found the existence of that mitigating factor to be proven by a preponderance of the evidence. If you choose not to make these written findings, cross out each page of Section II with a large "X" and then continue your deliberations in accordance with the instructions of the Court.

Regardless of whether or not you choose to make written findings, a finding with respect to a mitigating factor may be made by one or more of the members of the jury, and any member of the jury who finds the existence of a mitigating factor should consider such factor in determining whether or not a sentence of death shall be imposed, regardless of the number of other jurors who concur that the factor has been established.

MITIGATING FACTORS AS TO MURDER OF DWAYNE TABON

PETER ROBERT JORDAN has alleged the following factors in his background or character, the circumstances of the crimes, or other relevant facts or circumstance as mitigation.
